

International Amateur Radio Union Region 1

2017 General Conference – Landshut, Germany
16 – 23 September 2017

Subject	Adjusting the Deadline for nomination candidates for the Executive Committee		
Society	DARC	Country:	Germany
Committee:	C3	Paper number:	LA17_C3_25
Author:	Joerg Jaehrig, DJ3HW		

1. Situation:

Currently the candidates for the EC shall generally be nominated in advance by Member Societies. Exceptions are possible “in extremis”. Since “in extremis” is not defined, it becomes more and more regular, that candidates are nominated during the conference. This development causes some inadequate side effects.

2. Key point and proposal:

To remove in the Bye-Laws the highlighted part in:

Section B.5 - Rules for the Election of the Executive Committee
TABLE 2 - TIMETABLE FOR THE ELECTION OF THE E.C

[...] Notwithstanding that details of candidates shall generally be nominated in advance by Member Societies, in extremis, it is acceptable for candidates for appointment to the EC to be nominated during the Conference.

As an alternative, a precise definition of “in extremis” can be added to Section B5.
