

International Amateur Radio Union Region 1

**2017 General Conference – Landshut, Germany
16 – 23 September 2017**

Subject:	Yearly Report of EC Members		
Society	OeVSV	Country:	Austria
Committee	C3	Paper Number:	LS17_C3_35
Author:	Mike Zwingl, OE3MZC		

1. Introduction

In between IARU Region 1 general conferences, all important tasks of IARU Region 1 are handled by responsible members of Executive Committee.

2. Background

IARU Region 1 has a very important role in order to maintain privileges of amateur radio service in Region 1. The EC does represent a very high number of license holder within Europe, Africa and ME.

3. Key points and proposal

Based on the constitution of IARU Region 1 a number of EC members are elected at each general conference. Usually these high-ranking individuals will split the workload and number of important tasks among each other. It is important to understand that majority of members of our societies expect leadership from EC-members and do not see election just as an honour role.

Amateur Radio faces big challenges these days and therefore a lot of management tasks are to be performed in a timely and professional manner. In order to ensure this and have all member societies fully motivated, a clear and transparent planning and reporting structure is required.

4. Recommendation

Six months after election the EC should publish a clear plan and split of work for the upcoming period.

Each year there should be a detailed report from each EC member about progress within his area of responsibility. All these progress reports shall be published on IARU Region 1 web site in a timely manner.
