

International Amateur Radio Union Region 1

2017 General Conference – Landshut, Germany
16 – 23 September 2017

Subject	Publication of a DXCC list		
Society	VERON	Country:	The Netherlands
Committee:	C3	Paper number:	LA17_C3_45
Author:	Remy Denker, PA3AGF		

1. Introduction

Due to the international character of the amateur service, there is a strong need for amateur stations to have an updated DXCC list available.

2. Background

The existing DXCC list is sold by the ARRL, but it is not known how recent this is. Lists can be found on the internet (e.g. <http://www.ng3k.com/Dxcc/dxcc.html>) but they are not actualized.

3. Keypoints and proposal

It is proposed to come up with an actual and regularly maintained DXCC list, published on the IARU website.

4. Recommendation

The availability of an actual and correctly maintained DXCC list is recommended. This can be realized by an up to date publication of the DXCC list on the IARU website. A small working group within IARU should be nominated to update this list on a regular base.
